DIRECTIONS

To solve the mystery, insert paper in typewriter vertically, space down 2 single spaces from the top, set side margins for an 81-space line, and begin typing, line by line. Symbols: "10sp" means strike space bar 10 times; "1X" means strike "X" 1 time; etc. Keep shift lock depressed throughout entire typing. *Note:* Because of the length of this design, 61 vertical spaces, it would center more easily on 8½ by 13 paper instead of 8½ x 11 paper. If the longer (legal-size) paper is used, space down 8 single spaces from the top instead of 2 single spaces.

typewriter mystery game 9

DIRECTIONS

To solve the mystery, insert paper in typewriter vertically, space down 2 single spaces from the top, set side margins for an 80-space line, and begin typing, line by line. Symbols: "21sp" means strike space bar 21 times; "9X" means strike "X" 9 times; etc. Keep shift lock depressed throughout entire typing. *Note:* Because of the length of this design, 63 vertical spaces, it would center more easily on 8½ by 13 paper instead of 8½ x 11 paper. If the longer (legal-size) paper is used, space down 7 single spaces from the top instead of 2 single spaces.

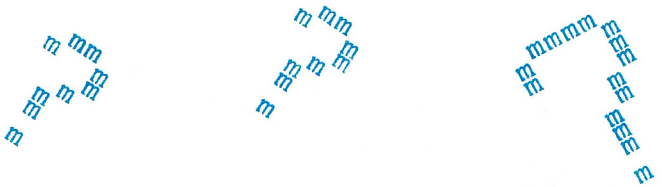
typewriter mystery game 14



DIRECTIONS

To solve the mystery, insert paper in typewriter, space down 35 single spaces from the top, set side margins for a 57-space line and begin typing, line by line. Symbols: "5(" means strike "(" five times; "3#" means strike "#" three times; "2sp" means strike space bar two times; etc. Keep shift lock depressed throughout entire typing. (Note that although both the left and right parenthesis are to be used, it will have no effect on the solution if *either* one is used in any sequence.) When you have completed the design, fold the 8½ x 11 paper in half, so that your design will show on the bottom half of the sheet; in other words, your design will be centered on a 5½ x 8½ folder. Hold the finished design several feet from the eyes.
